MAHR

MAHR was created in 2020 in Rome by Monia Furnari, a teacher of Pilates Matwork: a discipline that is a passion and a way of life for her. She studied ballet for many years and later began practicing Pilates, both in California and Italy.

In so many years of activity, she has never found leggings suitable for both the gym and other contexts. Hence, her decision to create a garment capable of making her feel comfortable, beautiful and without imperfections, dressing even in the most complex positions typical of Pilates: tweggings.

A tribute to movement and perfection.

Thus MAHR was born, also as a tribute to Martha Graham, an advocate of movement as the highest form of expression; and it is precisely in movement that our products render most: in dynamism they maintain their characteristics, without showing the imperfections and signs of fatigue, as happens in dance.

Unique garments, hand-sewn with passion and quality Made in Italy

MAHR's formidable fabric makes our products **resistant** to the touch and **light** to the eye, capable of holding **without making you sweat**.

Before arriving at our atelier in Rome, the fabric departs from Lombardy, from an Italian company that is a leader in the world of stretch fabrics, a symbol of Made in Italy quality made up of technical knowledge, stylistic excellence and tradition.

Each product is a **unique piece**, **Hand-cut with tailoring precision** from a pattern. Crafted with care and passion, they come to life thanks to the expert hands of our artisans, ensuring quality and uniqueness in every detail.
